SUMMARY

AI-Enabled Full Stack Developer with 1+ year of professional experience building scalable web and mobile applications and delivering AI-powered automation solutions using modern JavaScript and Python stacks. Strong expertise in full-stack development, system optimization, and intelligent workflow design with a proven record of solving real-world problems. Seeking a growth-oriented role to build impactful products and expand AI-driven solutions.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, HTML5, Tailwind CSS, Responsive UI Design

Backend & API Development: Node.js, Express.js, Django REST Framework, FastAPI, RESTful APIs, Authentication & Authorization

AI & Automation Solutions: AI API Integrations, n8n Automation Workflows, AI-Powered Features

Databases & Cloud: MongoDB, PostgreSQL, Firebase, Cloud Deployment, Environment Configuration

DevOps & Development Tools: Git, GitHub, Docker, Vercel, Netlify, CI/CD Pipelines, Postman, VS Code, Agile Development

PROJECTS

PAPU.AI

Dec 2025

AI-Powered Avatars & Video Generation

React.js, FastAPI, Firebase, Stripe, AI APIs

Developed a full-stack AI-powered platform enabling content creation, avatars, cinematic videos for end users.

Integrated AI services and subscription-based payments to deliver scalable automation solutions and monetized features.

Swap Rush

Oct 2025

Custom E-Commerce Mobile Application

React Native, Node.js, Express.js, MongoDB

Engineered a mobile e-commerce application with real-time product customization and seamless shopping experiences.

Designed efficient APIs and database structures to support dynamic product data and user transactions.

LIBMAX

AUG 2025

Library Automation Mobile Application

React Native, Node.js, Express.js, MongoDB, Cloudinary

Built a cross-platform mobile application to streamline library management, digital resources, and user access to publications.

Implemented scalable backend APIs and cloud-based media storage to improve data handling and content delivery.

Imagen

June 2025

AI-Based Image Generation Web Application

Django, Python, PostgreSQL, OpenAI API

Developed an AI-powered web application that generates high-quality images from user prompts using OpenAI models.

Optimized backend processing and data storage to ensure fast image generation and reliable prompt management.

EXPERIENCE

Full Stack Developer

Nov 2025 – Dec 2025

Infini8 AI

Remote

Developed PAPU.AI, an AI-powered content platform, by building scalable frontend interfaces and backend APIs.

Full Stack Mobile Developer

August 2025 – Nov 2025

Crypto Koder

Wah Cantt, Pakistan

Built Swap Rush, a custom e-commerce mobile application, implementing real-time product customization and secure backend.

Freelance Full Stack Developer

Jul 2024 – Present

Self-Employed

Remote

Delivered full-stack web and mobile applications for clients, handling frontend development, backend APIs, and database design.

EDUCATION

University of Wah

Punjab, Pakistan

B.S. in Computer Science (GPA: 3.27)

Sep 2021 – Aug 2025

LANGUAGES

English, Urdu
